# PACK BIMINI CAP

#### **IDEAL FOR**

- · Jobs involving prolonged sun exposure, such as gardening, construction, roadwork, agriculture and forestry.
- · Protects the nape against the UV rays while doing high intensity outdoor works.
- · Ultra-light design; easy to fold and carry.
- · Good Sweat and moisture management.
- · Adjustable elastic strap to adapt the size (57.5 cm-61.5 cm).
- · Laser-cut holes in the area around the ears to enhance hearing.

#### **CERTIFICATIONS**

SUN PROTECTION NOT APLICABLE TO BREATHABLE SIDE PANELS AND HOLE AREAS.

SKIN PROTECTION AGAINST NATURAL ULTRAVIOLET RADIATION							
Property	Standard	Performance value	Protection category	% UV radiation blocked	Effective UVR penetration (%)		
UPF	AS/NZS 4399:2017	50 UPF	Excellent	98 %	≤ 2.0		

VISIBILITY ONLY APPLIES TO FLUOR DESIGNS.

#### PROTECTIVE PROPERTIES AGAINST MINIMAL RISKS DUE TO LOW VISIBILITY.

This garment alone does not protect against this risk, as it does not reach a minimum surface for the user to be seen, but it helps increase visibility as long as the user also wears suitable protective clothing against this risk.

### **KEY FEATURES**

MOISTURE MANAGEMENT

LIGHTWEIGHT

**DIMENSIONS** 

# **FABRICS COMPOSITION**

Crown: 100% Recycled Polyester. Inner sweatband: 100% Polyester.

**Visor:** 100% Polyurethane.

# **PACKAGING**

## **WASHING MAINTENANCE SYMBOLS**

Mass per unit area: EN 12127:1997			107 g/m <sup>2</sup>	± 5 %		
Air Permeability EN ISO 9237:1995			80,76 mm/s	± 10 %		
Thermal Resistance (RCT): EN ISO 11092:2014		l	0,0041 m <sup>2</sup> K/W	± 10 %		
Water Vapour Resistance (F EN ISO 11092:2014	RET):		2,56 m <sup>2</sup> Pa/W	± 10 %		
Determination of breaking Strength and elongation:						
EN ISO 13934-1:2013	AVERA	AVERAGE LOAD		AVERAGE ELONGATION		
	LENGTHWISE	730 N ± 10 %	LENGTHWISE	40,5 % ± 10 %		
	CROSSWISE	590 N ± 10 %	CROSSWISE	92 % ± 10 %		
Bursting resistance (after 5 EN ISO 13938-1:2019	washes):		335 kPa	± 10 %		
Determination of dimension	nal change in domest	ic washing and	drying:
